

One Clear Moment

Little Feat

I see you lookin' 'round searchin' for some good times girl
Ain't no doubt about it, nothin' sweeter in this world
Forget the ringin' on your party line
I'll be there in person and I'll be right on time
Give me just one clear moment
I can turn your head around
All I need is one clear moment
To get you back up off the ground

I see you cryin' and I don't know why
The way you look you should be flyin' high
In that one clear moment

Overheard you talkin' 'bout your lover walkin' out the door
It's just the same sad story, you know we've heard it all before
We've all been kicked we've all been pushed around
I'll claim your heart back from the lost and found

Give me just one clear moment
I can turn your head around
All I need is one clear moment
To get your feet back up off the ground

I hear you callin' for some sympathy
I got the answer that can set you free
In that one clear moment

You're wonderin' how I'll make your grey skies blue
I see the doubt in your eyes, but what I say is true

Ah gimme that one clear moment
I can turn your head around
All I need is one clear moment
To get you back up off the ground

I hear you callin' for some sympathy
I got the answer that will set you free
In that one clear moment
