

Get By

Little Hurricane

We hold our heads high when rain comes down. It's been a long day, now it's done. You're all I need all day, all night. What we don't have we don't need.

We get by... Oh we get by... With only what we need to survive.
.. we get by.

I've lived in the city, I've lived in the trees. Do what I want, oh I do what I please. Your holiday is everyday for me. The Sun is shining, it's shining down for free.

We get by... Oh we get by... With only what we need to survive.
.. we get by.
