

Love Is A Bridge

Little River Band

How can I last another night alone without you?
So far away and missing all the things that you do
If I could hold you in my arms for just one minute of tonight
I know I'd say the words I find so hard to say to make it right

Each night away from you I see
All the things you really mean to me

Love is a bridge that links our hearts
Keeping us close when we're apart
I always knew, right from the start
Love is a bridge that runs from heart to heart

I live again, each night I go to sleep and dream of you
Things are different then, we can do anything we want to do
In dreams I know that I can face the things I never want to see
And I can show that I can be the one you always saw in me

Each night away from you I see
All the things you really mean to me

Love is a bridge that links our hearts
Keeping us close when we're apart
I always knew, right from the start
Love is a bridge that runs from heart to heart

Love is a bridge that links our hearts
Keeping us close when we're apart
I always knew, right from the start
Love is a bridge that runs from heart to heart

Love is a bridge that links our hearts
Keeping us close when we're apart
I always knew, right from the start
Love is a bridge that runs from heart to heart

Love is a bridge that links our hearts
Keeping us close when we're apart
I always knew, right from the start
Love is a bridge ...
