

# Waves of Green

Liv Kristine

Watching the tidals that wash to the shore - I never forget  
Into these silent waves of all times - eternally

How long may this remain  
Peace to the land  
Nature and sea  
Silent emotions are overcome  
I wonder how  
We can go on

Stormy times will we behold?  
Do we still care  
What future holds  
So many words been said undone  
The waves of green  
They will flow on

Heal me, free me - dawning is near  
Where is the saviour - for us to believe  
As I sit here - on Norge's shores  
Cries of the unheard - will they be heard  
The waves of green - whispering my name
