One Night Blues

Livin' Blues

```
I have got a funny feeling
That you don't love no more
I have got a funny feeling
That you don't love no more
But I still love you little girl
Please don't use me like a one night boy

You make me nervous, baby
You make me feel lonely too
You make me nervous, baby
Oooooh,You make me feel lonely too
I Want you to tell me, baby
I want you to tell me what you gonna do
Yeah, tell me baby, right now
```
