Worried Dreams

Livin' Blues

Oooh I feel so bad Yes I wonder what's wrong with me.

Oooh I feel so bad Yes I wonder what's wrong with me.

You know I think I call my baby and see what the matter can be

I woke up this morning Tears were running down my face.

I woke up this morning Tears were running down my face.

You know I guess I was dreaming That some other man was taking my place.

You know I dreamed about you baby You don't want me around you no more.

You know I dreamed about you baby You don't want me around you no more.

That's the reason calling you this morning Oooh baby I just got to know. I just got to know, tell me now

I can worry the whole day baby Tell you don't know what to do.

I can worry the whole day baby Tell you don't know what to do.

It may sound silly to you baby Tell me this dream is all wrong Oooh I want you to tell me. Oooh I feel so bad.
