

# Glass Teeth

Living Colour

In the dark, no control  
No direction or heavy load  
Imperfection, all alone  
Illumination, that's goin' home

No light, it's mighty cold  
The sun eclipse, the shadows glow  
Sweating bullets, nothing to show  
Can't stop now, no way to go

You wanna know what's mine  
What you can't define  
You wanna know what's mine, yeah

I've got some glass teeth  
And they shine, shine, shine  
I've got some glass teeth  
And they shine, shine, shine  
I've got some glass teeth  
And they shine, shine, shine

Fractures form and feel the fury  
Heads are shattered, memories are blurry  
You might miss it, you better hurry  
The end is coming, no need to worry

I'll show you a sign  
It works every time  
Baby you ain't blind, no

I've got some glass teeth  
And they shine, shine, shine  
I've got some glass teeth  
And they shine, shine, shine  
I've got some glass teeth  
And they shine, shine, shine

Not to be unkind  
I'm inside your mind  
Y'all know the next line, yeah

I've got some glass teeth  
And they shine, shine, shine  
I've got some glass teeth  
And they shine, shine, shine  
I've got some glass teeth  
And they shine, shine, shine
