Let It Rain

Living Things

Babe
Why are you still inside
Why don't you come outside
Relieve your pain

Time
We've been killing time
But I don't mind
The city's got me down

And our glory days are over
Yeah our glory days are gone

Let it rain, let it rain
I know coming down can hurt
And tonight is the night
Where we leave it all behind
'cause I don't believe that they can wait
The sky's going black, lets celebrate
Let it rain, let it rain
I know coming down can hurt

Lies
We've been telling lies
One more's around
In this sleepless town

And our glory days are over
Yeah our glory days are gone

Let it rain, let it rain
I know coming down can hurt
And tonight is the night
Where we leave it all behind
'cause I don't believe that they can wait
The sky's going black, let's celebrate
Let it rain, let it rain
I know coming down can hurt

And our glory days are over
Yeah our glory days are gone

Let it rain, let it rain
I know coming down can hurt
And tonight is the night
Where we leave it all behind
'cause I don't believe that they can wait
The sky's going black, let's celebrate
Let it rain, let it rain
I know coming down can hurt
