

Celebrate, celebrate, emancipate  
'Cause now it's a new year  
Watch the saints come, marching saints  
Watch the saints go marching  
Away from you, from you, from you

And I don't think they notice  
That we're immune to it and we don't care  
I said, deny education, fornication  
'Cause they don't care, no, they don't care

Revelate, imitate, market hate  
And we'll sell them new rules  
I said, hey, I can't wait, I faint  
'Cause I caught a snake in my room

And I don't think they notice  
That we're immune to it and we don't care  
I said, deny our addictions, rig elections  
'Cause they don't care, no, they don't care

Celebrate, celebrate, it's a new year  
Celebrate print fear  
Celebrate, celebrate  
Celebrate, celebrate

And I don't think they notice  
That we're immune to it and we don't care  
I said, deny education, fornication  
'Cause they don't care, no, they don't care

No, they don't care, no, they don't care  
No, they don't care
