Johnny Sunshine

You took the car It was my favorite one A little white Dart And drove it to Idaho You took the horse It was a thoroughbred Saddled it up Out on the interstate You kept the cat [put it in] antifreeze Dumped in the trunk with the rest of the cattlefeed You took the house You went and changed the locks Now I am stuck Living [in a] [out of a] box I think I've been taken for everything I own I've been hurt so badly I'm alone, baby, I'm alone You left me nothing You left me nothing Johnny Sunshine You left me nothing You left me nothing Johnny Sunshine You left me nothing You left me nothing Johnny Sunshine You left me nothing You left me nothing
