

Shane

Liz Phair

I know that it was the night
The war broke out because
You and I were driving around

You were doing a story
About if people understood
What had happened to their world
Tonight
In bed
Sleeping
The world tonight
In bed
Asleep

You said that you were in touch
With the draft resistors
In case the big boys called you up
You're gonna have to let 'em
Dick you around
But don't let 'em make
You do
What you can't live with
Tonight
In bed
With me
Sleeping

You looked like you were just a little kid
Shane, I said, you've got to watch your ass

You've gotta have fear in your heart [x8]
Fear in your heart.
