

Shatter

Liz Phair

I know that I don't always realize
How sleazy it is
Messing with these guys
But something about just being with you
Slapped me right in my face
Nearly broke me in two
It's a mark I
I have taken heart
And I know I will carry with me for a long long time
I don't know if I could drive a car
Fast enough to get to where you are
or wild enough not to miss that boat completely
I need, I'm fakin', baby
You know just maybe
I don't know if I could fly a plane
Well enough to tail spin out your name
Or high enough to lose control completely
I need, I'm fakin', baby
You know just maybe, maybe
