

My Midnight Things

Lizzy Borden

I want you to see me,
For what I am, believe that I can be your everything,
I want you to feel me,
I'll wrap the dark around you and tonight you belong to me,

I want the flames, I want the fire,
I want all that I desire,
I wanna live in the dream of my midnight things,

Bring on the pain, I need the power,
Gimme all I can devour,
So I can live in the scream of my midnight things,

I want you to want me,
A leap of faith can change our destiny,
You're not alone,

want you to love me,
I see you as you are and you're so real,
Out in the cold,

I want the flames, I want the fire,
I want all that I desire,
I wanna live in the dream of my midnight things,

Bring on the pain, I need the power,
Gimme all I can devour,
So I can live in the scream of my midnight things,

I want you to know,
We didn't come this far just to come this far,
We're almost home,

I want you to hear me,
Don't murder our tomorrow in your sleep,
Because we're all hollow,

I want the flames, I want the fire,
I want all that I desire,
I wanna live in the dream of my midnight things,

Bring on the pain, I need the power,
Gimme all I can devour,
So I can live in the scream of my midnight things,

I want the flames, I want the fire,
I want all that I desire,
I wanna live in the dream of my midnight things,

I wanna live in the dream of my midnight things,
I wanna live in the dream of my midnight things!
