

We're so much better when we're high
We just hold hands and watch the sky
I don't say much and that's ok
I think we're better that way
(We're so much better)
I saw her sneak into the bathroom
(There she go, there she go)
Couldn't. I couldn't look the other way
She said she like it better when im romantic
All i ever really had to say
We're better
(We're better. Better.Better.Better)
When i go beast mode i'm commander
I think about it everyday
I'm here at the hotel California
(Book into the hotel California)
I like it better when you stay
Let's take a trip of to Nevada
We can be the highlight
We're Better
(We, re better... better.better.better.better)
You're pretty when you're stoned.
I Know...
That you can do a better pose for the camera
You pretty little rose
I Know...
We can go for a nice stride in bananza
We're so much better when we're high
We just hold hands and watch the sky
We're Better
(We're better. Better.Better.Better)
We're Better
