

Passion to Go

Locnville

Chorus: Gotta give them something good on this one, I'mma make
you vibe
tonight, I've been waiting
my whole life, for this right here, I hope you like. One thing
I ask of you
though, could you keep on
passing that smoke, feeling relaxed in my zone, 'bout to get so
me passion
to go.

Hold up, roll it up, take your time, slow it up, blow it up to
the sky,
hold it up for your pride, steady
dancing baby, and get exasperated, it's just a chance I'm takin
g, take it
with me, passion crazy. I feel
emancipated, level up exaggerated, so smooth, new, something li
ke a master
made it. And I'm loving
every second in it, definitely reckless with it, stepping up wi
th the best
thing in it, section bless the
next win with it. The only way that I know is the decision I le
t live about
the way that I go.

Go, go, before I leave, I'mma take some of that with me, it's t
he season
just to be, so who in here's
leaving with me. I see you're with me sweetheart, let's grab a
drink and be
off, and bring your passion
with you, what a fantastic picture, your pretty fashion figure
is just a
fraction of you. Imagine fantasy
driven ecstasy phantom living, caught up in pleasure better tha
n ever and
treasure every moment of it,

gripping tight and holding on it, the only way that I know is t
he decision
I let live about the way that I
go.
