Into the night, no lights
Heartbreaks of Down CD for the ride

My place, your place, you know where we fuckin'
Don't be shy cause there ain't nobody watchin'
Take it off, baby just take it off

Do you like the way I put it down?
Baby put it in, I promise I won't let you down
Tonight you're mine
Hold my body, put your hands between my thighs

Do you like the way I put it down?
Baby put it in, I promise I won't let you down
Tonight you're mine
Hold my body, put your hands between my thighs

Her voice is crushing the fire, her lingerie by Allor

I need a girl that know just how to fuck me

'Cause she gon shut it down, yea
I can make your body levitate up in the air
And have you floodin' like you're under water, baby
I know you're gonna like it when I get it
Sex is so good, you won't regret it
Tell me you're ready cause I'm 'bout to put my head in, head in
After we're done and through your body won't wanna move
And that pussy make you feel right
I'm a put you straight asleep for the night
And when you open your eyes you can tell me do you like
