

Money

Loick Essien

Eh eh eh

I've come too far
I can't hear none of these niggas
They all just fuckin' beginners
No good but I bang hard
I tell you again and again and again and again
That the only way for me is high
Just tell me how you get it
You real that we gon feel it
Stop chill like eat a billion, swag
Don't fuck with the gang
My friend Bassami make you go (bang bang)

Uh give me one minute, one second
Just for me to catch my breath
This is just what I do
Should not bother try and break your neck
Cause I'm not in your view

The speakers go bang (bang bang bang bang) while we up in the club
The speakers go bang (bang bang bang bang) ah ah
Get money money money money money money money money money
How you get me, show me just how you get me
Money money money money money money money money money
Bang bang bang bang bang bang

Back on the air
They didn't even care that I was missin'
Now they pay for an appearance
Made a bang for them to listen
Now I make their head nod, niggas screw your face up
If you tryin' to catch me boy you need to keep your pace up
No one once started from tint and flashing cameras
I'm the only one and these other boys are camouflaged
Aye, believe me when I say
Their motto every day is getting paid, yea

Uh give me one minute, one second
Just for me to catch my breath
This is just what I do
Should not bother try and break your neck
Cause I'm not in your view

The speakers go bang (bang bang bang bang) while we up in the club
The speakers go bang (bang bang bang bang) ah ah
Get money money money money money money money money money
How you get me, show me just how you get me
Money money money money money money money money money
Bang bang bang bang bang bang

I'm done with seein' cash, I'm thankful
Swag until I die, playing cards, life's a gamble
Rarely see me dancing in the dance but I can move
In diesel lookin' like fire with it's hands full
Seems she seem tonight, she finds it harder to sleep
Took her at the rave, put her in the car of dreams

Took her 'round my place, she was like a smiss of the quee
I pay attention, I can pull my receipts

The speakers go bang (bang bang bang bang) while we up in the club
The speakers go bang (bang bang bang bang) ah ah
Get money money money money money money money money money
How you get me, show me just how you get me
Money money money money money money money money money
Bang bang bang bang bang bang

The speakers go bang!
