

Love Is Gonna Change

Lollipop

Dancing on the sand me'n'you
Run to the water
If i tell you now that i would
Just love me tender

Love is gonna change the world
Love is gonna change my world today
Love is gonna drive you insane
But it's up to you the way

I would like to kiss you forever
Lose your mind'n'fall in love the rest doesn't
matter
I know what i feel is a fever
And my only cure is you tonight

Love is gonna change the world
Love is gonna change my world today
Love is gonna drive you insane
But it's up to you the way

Dancing on the sand with the moon
Light on the lovers into the water
Near the sea i move on to you
Livin'the moment music in the air

I would like to kiss you forever
Lose your mind'n'fall in love the rest doesn't
matter
I know what i feel is a fever
And my only cure is you tonight

Love is gonna change the world
Love is gonna change my world today
Love is gonna drive you insane
But it's up to you the way

Taira...taira
