

# You

## Lollipop

Sitting hear alone near my coffe? cup  
Waiting for somebody that may not arrive  
Wearing my sunglasses just to hide the pain

I want you stay  
Love as always been a strange thing to me  
You keep and you leave everytime you need

I don't wanna cry a tear for you  
But i know i'll do  
We now, we need each other  
May be you don't, may be you don't

I don't want nobody  
I only want you

You only you  
That is true  
Hey wanna make me feel so good  
Just explain all this pain i don't need nothing else but you  
Only you that is true  
I just heep stop loving you  
Just explain all this pain i don't need nothing else baby

And adlance is enough to make me fly  
Suddenly on innerpiece i own inside living in the memory  
Of our days  
I want you again

Even if i think that you no care  
Anotherday comes tell me  
The way try and forget to i am...

Theyr you i don't want nobody  
I only want you  
We know we need each other  
Some want to do

Every day in my life  
I give you onesty  
I give you everything  
And i don't have to you  
Don't want i promise  
Don't want there to fall  
Just stop again with my heart  
I want stop again with my heart  
I want let to go
