

# Hail Victory

Lonewolf

Listen brothers, the war is won  
The oppression has been slayed down  
We took the sword for a noble cause  
Hail & glory to our fallen ones

We've seen their empire fall, we've seen the tyrants crawl  
Our freedom was born through our blood, our faith was our force

Hold your banners high  
Proud, towards the sky  
We hail pagan glory  
We hail victory  
Hail

Greet the sunrise for it reveals  
A new age where man is free  
To trust and pray whom he wants  
No iron fist to rule the law

There's no god below a cross sealed above wood and stone  
He's everywhere & in each believer's heart, no murder tears  
faith apart
