

# Heathen Dawn

Lonewolf

The world is on fire, men have gone insane  
The soil of mother earth turns to red  
Nameless massacres, deeds without a name  
It's time for the dragon to lose its tongue and its head

Heathen dawn, get rid of your fears  
Heathen dawn, for our liberty  
A new age to come, the dawn of victory  
Heathen dawn, fighting to be free

Evil the darkest kind, as innocence is slain  
We don't want a world of slaves and pain  
It's time to fight the fire with fire and no remorse  
It's time to hunt and kill the demon forevermore

Heathen dawn, get rid of your fears  
Heathen dawn, for our liberty  
A new age to come, the dawn of victory  
Heathen dawn, fighting to be free
