

## Night peace

Lonewolf

Now the last rays of daylight died  
And the dark brought it's mysteries  
The curtain felt on the other side  
Now another life is to begin

In the peace of night  
They rise from the other side  
Those strange feelings  
Of their ancestral might

In the peace of night  
Echoes of ancient times  
As all stands still they come back to life

Remember all those fairytales  
Are so close they're near to come true  
Glorious warriors magic princesses  
Bards and wizards  
They're near to touch you
