

Around the World

Look-Out!

Hear no sea, see no falls, feel no wild, see no world,
I wanna change my life and your too, I wanna runaway, around the world with you.

In my head is no information, how to survive hot days in desolation.

I don't know how to keep down fire, maybe it will be not too dire.

Give me your hand, we go together
Discover new land, be famous forever
Give me your time and I show you secrets
Discover my mind, maybe you uncover, I'm fine
refren:

From east to west with heart, from north to south with grace, this is our mission and we'll finish this race.

Around the world with you, around the world with you, around the world with you, tell me, this adventure will be true.

New York, London, L.A. or Tokio, across the world with you and my radio.

Cape Town, Stockholm, Sydney or Paris, only you, me and romance in Venice.

Give me your hand, we go together
Discover new land, be famous forever
Give me your time and I show you secrets
Discover my mind, maybe you uncover, I'm fine
refren:

From east to west with heart, from north to south with grace, this is our mission and we'll finish this race.
