

## Never Say Stop

## Look-Out!

[illegible][illegible][illegible]

Never say stop, never say enough.

[illegible]

Never say stop and never say what????????????

When you are lost or when you are alone.

Set your teeth and listen to this song.

New day is coming in to your boring life.

You must run and run and run and run.

Please don't abandon an idea of winning.

Now we are with you and we are singing.

[illegible]

Never say stop, never say will not.

[illegible]

Never say stop and never say what????????????

Let's go to party, let's go for a drink.

Clear up your head, after'll grow you wings.

New time is coming in to your boring show.

Nobody stop you, go and go and go.

Please don't abandon an idea of winning.

Now we are with you and we are singing.

[illegible]

Never say stop, never say will not.

[illegible]

Never say stop and never say what????????????
