

## 21 Grams

Looptroop

Yeah, drop it, uh, come on..

21st century

My people workin 24/7 for 24 carats of gold

With 21 grams I've sold, I'm 28 years old

By the time you hear this rhyme I might have turned 29, 'cause

Time flies to 21 thousand feet

I'm in a hurry, spit 20 some rhymes per beat

'Cause pretty soon the human race will be obsolete

And all our so-called leaders do is just talk so sweet

The facts forbidden my tracks are hidden

It flows laxative, but lacks the rhythm

Talking 'bout economics, politics plus religion

It all equals what they want us to give'em

And now they standing there, getting theirs but getting 'nuttin

They probably can't spell love only more production

That suction, pointing out core corruption

But I'm obstructing their laws (So what's up then)

Hit me with 41 shots from a Glock 21 hand-gun

My grandma said she had that hell of a grandson

With 21 albums, if anyone asked

They took my life but couldn't find my

21 chika grams I've sold

(With each man must hold)

Stay in the zone

('Til he dead and gone)

It's hard to keep the faith

(So all my people say)

Only love can ease the pain, c'mon

With 21 grams I've sold

(With each man must hold)

Stay in the zone

('Til he dead and gone)

It's hard to keep the faith

(So all my people say)

Only love can ease the pain, (ease the pain)

Some people carry the weight of the world on their shoulder

With so much grace, you pray for them not to fall over

Some fold under the pressure depressed by heavy drugs

Some get the load of their chest with lead slugs

Some let their best years pass, stressing for tons of cash

Then pass away with 'nuttin but 21 grams

And some believe Fox news, some in religious rules

Like entrance at the pearly gates was for us to choose

Someone to control, my body and soul

So they told us we could never make it on our own (They dead wrong)

Someone to be picture perfect amputees

Weight watchin anorectics blinded by TV

Some can't sleep 'cause their pounding heartbeat

With minded my milligrams to the vein will make the pain leave

Others walk lighthearted tell the day they drop

Were singin "All you need is love" but all we got is

21 chika grams I've sold

(With each man must hold)

Stay in the zone

('Til he dead and gone)  
It's hard to keep the faith  
(So all my people say)  
Only love can ease the pain, c'mon  
With 21 grams I've sold  
(With each man must hold)  
Stay in the zone  
('Til he dead and gone)  
It's hard to keep the faith  
(So all my people say)  
Only love can ease the pain, (ease the pain)

21st century, life style western way  
Where the best gets paid and the rest gets slayed  
If not yesterday, you gon' be dead this day  
My people trying out (There's gotta be a better way)  
'Cause you know, they do everything they can to feed you nonsense  
But the beat is pumpin' so yo we need 'nuttin  
More than love in the warmin' sun  
When it's cold outside you and me form as one, and live on  
This song is just so and so long  
But we'll be here 25 to life and beyond  
I see it coming clearer perfect 20/20 vision  
Evil souls try to murder my ambition  
But this shit is destined from the beginning  
Yo, can't do nothing about it and in the end  
The weight of your total knowledge is none  
But the sum of all souls probably weighs a ton

21 chika grams I've sold  
(With each man must hold)  
Stay in the zone  
('Til he dead and gone)  
It's hard to keep the faith  
(So all my people say)  
Only love can ease the pain, c'mon  
With 21 grams I've sold  
(With each man must hold)  
Stay in the zone  
('Til he dead and gone)  
It's hard to keep the faith  
(So all my people say)  
Only love can ease the pain, (ease the pain)

21 gun salute and when each man must shoot  
To reap the fruit in a three peace suite  
We must defeat the hate  
All my people say  
Only love can ease the pain  
With 21 gun salute (When each man must shoot)  
To reap the fruit (In a three-peace suite)  
We must defeat the hate (So all my people say)  
Love can ease the pain
