

La Bomba

Lord Of The Lost

Come with me, I come with you, la bomba
Come for me, I come for you, la bomba
Come on me, I come on you, la bomba
La bomba! Explota! Kaboom!

UH, I've been told that you are the best and the things you do
Take control
Hey you, love the best, fuck the rest

Danger, danger, flames are blazing
There's a fire in the hole and the sparks are spraying
Now back off, back off
Tongues of fire are licking slowly

Danger, danger, detonation, bitch
Blast, explosion, fulmination
Now back off, back off, dynamite
The bomb's untied

Run, baby, run
We are dancing in the sun
And we make love like loaded guns
This bomb is armed
Run, baby, run

Come with me, I come with you, la bomba
Come for me, I come for you, la bomba
Come on me, I come on you, la bomba
La bomba! Explota! Kaboom!

I've been told that you are the best and the things you do
Take control
Hey you, love the best, fuck the rest

Danger, danger, kamikaze
Let's fuck in flashes of the paparazzi
Don't back off, turn your back on me
Bend down and smile

Come with me, I come with you, la bomba
Come for me, I come for you, la bomba
Come on me, I come on you, la bomba
La bomba! Explota! Kaboom

Run, baby, run
We are dancing in the sun
And we make love like loaded guns
This bomb is armed
Run, baby, run

Come with me, I come with you, la bomba
Come for me, I come for you, la bomba
Come on me, I come on you, la bomba
La bomba! Explota! Kaboom!

Run, baby, run
We are dancing in the sun

And we make love like loaded guns
This bomb is armed
Run, baby, run

Run, baby, run
Until we're howling at the moon
After all is said and done
After all we have been through

Come with me, I come you, la bomba!
