

Shhh...

Lorene Drive

Don't say a word  
Baby I don't even need to hear your voice  
Your eyes will describe everything  
Involved with you  
With you

Boarded up

Don't take everything  
Take everything  
I meant what I said  
Every word

I don't even care  
Any more  
I feel what I said  
and I feel it more  
Involved with you  
With you

Boarded up

Don't take everything  
Take everything  
I meant what I said  
Every word  
Every word  
Every word

We've got our night  
And baby I'm so glad I never passed you by  
I still think I'm dreaming  
Well, if I am  
Don't wake me up yet  
Don't wake me up yet

I miss how much  
I'd miss you  
I'd miss you

Don't wake me up yet  
Don't wake me up yet

Boarded up  
Boarded up  
Boarded up  
Boarded up  
Boarded up

Don't take everything  
Take everything  
I meant what I said  
Every word (what I said)  
Every word  
Every word  
Every word

Don't say a word  
I don't need to hear your voice  
Your eyes will describe everything
