

When We Get Back Together

Loretta Lynn

When we get back together, oh it won't be the same
When we get back together, oh it won't be the same

Anything you want to do is fine with me
You know I'm through with things that don't suit me
I guess I never knew what we had
I never thought that I would feel so bad

When we get back together, oh it won't be the same
When we get back together, oh it won't be the same

I made my friends without including you
But I couldn't stand not sharing them with you
So don't say you told me so
It's better not knowing that I let you go

So get back get back get right back
So get back get back get right back
So get back get back get right back together together

When we get back together, oh it won't be the same
When we get back together, oh it won't be the same

I guess I never knew what we had
I never thought that I would feel so bad

So get back get back get right back
So get back get back get right back
So get back get back get right back together together

When we get back together, oh it won't be the same
When we get back together, oh it won't be the same
When we get back together, oh it won't be the same
When we get back together, oh it won't be the same
