

# Love Can Put It Back Together

Lori McKenna

I thought I was the setting sun  
All along I didn't need no one  
I don't know where all was lost  
Love can put it back  
When I breathe out nothing comes back in  
Shell of myself, bones and skin  
Loose tooth in the faded scream  
I never learn to cry

You don't have to feel this way  
You don't have to feel this way  
Love can make those feelings change  
Love can put it back together

Why say things that no one hears  
Climbing ladders that lead nowhere  
Even the ghosts have disappeared  
Right before the show

You don't have to feel this way  
You don't have to feel this way  
Love can make those feelings change  
Love can put it back together

We were built for stormy weather  
We were built for snow  
So light some candles, sing this song  
And dance with me real slow  
Love can put it back together  
You don't have to feel this way  
You don't have to feel this way  
Love can put it back, love can put it back together
