

My Sweetheart

Lori McKenna

Everybody loves my sweetheart
Everybody loves my man
All the other girls wish they had his heart
All the other girls do everything they can

Everybody loves my baby
Everybody loves my boy
All the women drive me crazy
Telling me how they want to take away my joy

If you knew, if you only knew
If you spent one day in my shoes
Blue, blue, blue...

Well, everybody loves my honey
Everybody loves my love
They all wonder why he loves me
They all want to take, take away his love

If you knew, if you only knew
If you spent one day in my shoes
Blue, blue, blue...

When the stars are singing
and he is up there in the sky
All that I feel is suffering
worried when he might fly

Everybody loves my sweetheart
Everybody loves my boy
All the other girls wish they had his heart
All the other girls want to take away my joy

My joy, my joy, my joy...
