

## Early Morning Love

Lou Rawls

Early morning love, round about the time the sun comes  
up  
Early morning love, the kind of love you just can't get  
enough of..  
As I slowly roll over, I feel your body next to mine  
And As I look out the window, I see the sun start to  
climb  
Early morning love, it lasts until the break of dawn  
yea  
Early morning love, before you know it the whole darn  
day is gone  
As we get lost in our world of total exstacy,  
It's like nothing compares, except you, you and me  
Early mornin love, when lifes between day and night,  
Early mornin love, what a way to start the day off  
right

I feel your heart beat full of passion and desire  
You know I feel it deep too, its like mixing fire with  
fire  
Early mornin love, around about the time the sun comes  
up  
Early morning love, the kind of love ya just can't get  
enough  
I'm talkin bout early morning love, talkin bout early  
morning love  
Around about the time the sun comes up  
Early morning love  
What a way to start the day off right,  
Early, early mornin love will make it alright  
What a way to start the day!  
Early mornin love will take you all thru the day yea  
Fire with fire  
Full of passion and desire  
Before you know the whole darn day is gone  
Early mornin love will make it go on  
Early mornin love, yea  
what a way to start the day off right  
Early mornin love  
I'm talkin bout early mornin love  
Well well well well early mornin early mornin love  
Early early mornin love, early morning love yea
