

# Need You Forever

Lou Rawls

Today we're friends  
Oh but tomorrow  
We could be lovers, baby  
You see it happened yesterday  
You thought I wanted to play  
But girl I wanna stay  
Right here with you

You say you wanna know  
You wanna know, you wanna know  
If I really love you, baby  
You see ya mean more to me  
I'm chained and I can't break free  
Your love has a hold on me

You see that I need you forever!  
I need you forever  
I need you forever  
Starting right now

You oughta understand  
That I ain't playing with ya, woman  
I'm for real, girl  
This time I'm for real, baby  
You see it happened yesterday  
When you kissed me that-a way  
Not another day, baby, not another day  
Can I spend without you

I need you forever  
I need you forever  
I need you forever  
Starting right now

I need you forever  
I need you forever  
I need you forever  
Starting right now

I need you forever  
I need you forever  
I need you forever  
Starting right now

I need you forever  
I need you forever  
I need you forever  
Starting right now

You see, you mean more to me  
I'm chained and I can't break free  
Your love has a hold...  
You got a hold on me

You see that I need you forever  
I need you forever  
I need you forever

Starting right now

I need you forever

I need you forever
