

Sister Moon

Lou Rhodes

She laughed at me
Under a night-time tree
My sister moon told me
You'd be here soon

Missing you like I do
I prayed she spoke true
Missing you like I do
I prayed she spoke true

Then through the dark
Came a fiery spark
A shooting star told me
You were never far

Missing you like I do
I prayed he spoke true
Missing you like I do
I prayed he spoke true

Doubt plays with me
When you're away
Though my heart knows the truth
On my mind she preys

Then tender night
Wrapped her blanket tight
Of deepest blue telling me
You were ever-true

Loving you like I do
I prayed she spoke true
Loving you like I do
I prayed she spoke true yeah
Loving you like I do
I know
