

## 2012~End of the Age

Loudness

Domesticated nation  
Ignorant subjugation  
The crimson Urge for conquest  
Creeping reign of terror  
Calling all the shots  
Baring fangs People's republic  
Bound in chains for the rest of your life  
Children brainwashed  
Social corruption  
Falling deeper into chaos  
The human wasteland  
It slowly kills the earth  
Our ego chokes us to death  
The world of free-for-all  
It's time to pay the due  
The story's been told  
It's end of the Age  
Are we at the end of game?  
There's no future?  
Open up your mind now  
For all mankind  
Come together as one  
From eve to dawn  
Power politicians  
Die in hell  
Eternity in inner-selves  
Twenty-twelve  
The human extinction  
Absolute contradiction
