I hear the voices "Go and give it a shot" Got to make my dream come to life Life is hard but I've got to fight it out I have not a single shred of doubt in my mind Fortune and fame Don't mean a thing to me Crowning glory Forget the past Go for higher Ground 'Cause I've got nothing to lose Another reason to live my life Cuts and bruises will not hold me back now Gonna die with the flag on my back You don't know what's ahead Just groping in the dark Gotta make up my mind Gotta make up my mind Go your way The goal is out of reach but still in my sight Gonna blow up your mind Gonna blow up your mind Carry on Get on Get on Get on Look out Look out Don't back down Break new ground Don't you dare Waste your life Don't look back Past is gone Live to fight Live for dream
