

Electric Kisses

Loudness

Little nervous fingers
Black see through dress
Lipstick from woolnorth's
Can't conceal she's a midnight mess

Cigarettes and breathmints
Are her perfume
Teenage charisma
Gonna lead me to my sweaty doom

Yeah, electric kisses
Yeas, I'm out of control

Lightning strikes
In a television sky
It's a little obscene
If you know what I mean

Electric kisses
Electric kisses

Passion bites
Like a serpent in the night
From the final scene
Of a pornographic dream

Electric kisses
Electric kisses
Babe

She's coming closer

Ready in a heart beat
She calls a name
And through it's not mine
I find I answer just the same

Yeah, electric kisses
Yeas, I'm out of control

Lightning strikes
In a television sky
It's a little obscene
If you know what I mean

Electric kisses
Electric kisses

Passion bites
Like a serpent in the night
From the final scene
Of a pornographic dream

Electric kisses
Shocking my system
Electric kisses
I've got to get some

Electric kisses
Shocking my system
Electric kisses
Under my skin
Electric kisses
I've got to get some
Electric kisses
Out of control

Lightning strikes
In a television sky
It's a little obscene
If you know what I mean

Electric kisses
Electric kisses

Passion bites
Like a serpent in the night
From the final scene
Of a pornographic dream

Electric kisses
Electric kisses
Electric kisses
Electric kisses
Shocking my system
I got to get some
Electric kisses
I got to get some
Electric kisses
Electric kisses
Electric, Electric...
