

# Let It Rock

Loudness

The fireworks in the night  
Hey! Raise your hands up into the light  
You will never fade away

We stand here together tonight  
'Cause we fight for the rock  
Rock with us all night and day

Rock until your dreams come true  
Rock until your dreams come true  
Let it rock!

Let the rock be explored,  
Hey! Raise you voices higher  
Make you come alive tonight  
We can take you higher

We stand here together tonight  
'Cause we fight for the rock  
Make you come alive tonight  
We can take you higher

Rock until your dreams come true  
Rock until your dreams come true  
Let it rock!

Let it rock!  
No matter what they say  
Let it rock!  
Don't change your ways  
Let it rock!  
No matter what they say  
Let it rock!  
Don't change your ways  
Let it rock!  
Fight for the rock  
Let it rock!  
Don't change your ways
