

# Life Goes On

Loudness

I hear my heart, a voice of the soul, deep inside of me  
It says "Believe in your own powers,  
Believe in your own potential!"

Wondering from time to time, trying to find the truth  
Finding the will to carry on  
Finding the will to rock on

Oh yeah, life goes on!

We're living for rock and roll  
Always another show  
Wheels go round and round  
Survive until the end  
Our show must go on  
Our lives go on...

We live to rock and roll  
We're finding our souls  
We're following our dreams  
Backwards and forwards  
Our show must go on  
Our lives go on...

Our lives goes on...  
Our lives goes on...

You're on my mind  
My hopeless heart sleeps alone tonight  
I wish I could call you tonight  
You give me the power to believe

Wondering from time to time, trying to find the truth  
Finding the will to carry on  
Finding the will to rock on
