

# Transformation

Loudness

Fill my soul, kill my pain  
Please make me understand  
Why I'm feared, why I'm scared  
Why I cry, why I'm hated  
Please take me to a place  
Where I can feel safe, safe again!

"Transformation"

In another's eyes, I can make it happen

"Transformation"

My will to survive, if I let it happen

I'm not bound to lose control  
I've been through hell, to save my soul  
I've seen the door, I've turned the key  
But all I found inside was me!

As I walked through the gate  
From sin to sin, from love to hate  
My father's son, my mother's child  
A sole survivor of the wild

"Transformation"

I'm against the wall, trying to make it happen!

"Transformation"

I'm never gonna fall, gotta make it happen!

I'm not bound to be myself  
I've lost control, I'm someone else  
But now I know I must succeed  
This transformation's killing me!

"Transformation"

In another's eyes, I can make it happen

"Transformation"

My will to survive, if I let it happen

I'm not bound to lose control  
I've been through hell, to save my soul  
I've seen the door, I've turned the key  
But all I found inside was me!
