

# Me and My Friend the Cat

Loudon Wainwright III

Me and my friend the cat  
Into the night we sat  
We were sitting at speeds  
Known only to few  
Incredible distance we travelled us to

If only you'd been there  
You'd know what I mean  
If only you'd been there  
If only you'd seen

For the Ides of March were upon us then  
And it's been a year since I didn't know when

Me and my friend the cat  
Well we talked about this, about that  
We were talking in circles  
You would never have guessed  
That this was the target  
And that was the quest

If only you'd been there

You'd know what I mean  
If only you'd been there  
If only you'd seen

February is over and time marches on  
Yesterday, Yesteryear got up and gone

Me and my friend the cat  
Well the two of us chewed the fat  
We were chewing together  
The blubber was bit  
It gagged in our throats  
Out foamed a fit

If only you'd been there  
You'd know what I mean  
If only you'd been there  
If only you'd seen

Tomorrow was St Patrick's Day  
I'm a layman now, I don't have to pray
