

Slow Down Love

Louis The Child

Painting you picture of the feelings that you never did, ooh
Do you hear the voices in my head
Calling for something to know?

Slow it down, love, it's too bright out there
Out there
Hold on, love, you're walking thin air
Thin air

Dammit, now if you know you're in or out
Oh, I put too much behind it
Dammit, now if there's something I left out
Oh, I'm in my head, come and find me
Dammit, now if you know you're in or out
Oh, I put too much behind it
Dammit, now if there's something I left out
Oh, I'm in my head, come and find me

All this time I waited on a future that you never did
And despite all the love I gave
You wanted something I can't give

Slow it down, love, it's too bright out there
Out there
Hold on, love, you're walking thin air
Thin air

Dammit, now if you know you're in or out
Oh, I put too much behind it
Dammit, now if there's something I left out
Oh, I'm in my head, come and find me
Dammit, now if you know you're in or out
Oh, I put too much behind it
Dammit, now if there's something I left out
Oh, I'm in my head, come and find me
