

# The City

Louis The Child

I'm begging, I'm begging, I'm begging  
I'm begging you, please stay  
'Cause that city, that city, that city  
That city won't treat you my way  
And I'm hoping your Uber breaks down on the way  
As it speeds to our place  
'Cause when you head downtown and they turn you around  
This'll just be your place

So we keep holding on  
You had me all along

There's no love in the city  
Just lights looking pretty  
So don't run to the city  
There's no love in the city

There's no love in the city  
Just some lights looking pretty  
So don't run to the city  
There's no love in the city

Our history isn't the best  
Let's not let it repeat, ay  
I don't wanna wake up to photos of you with a new date  
'Cause last time this happened, I ended up snappin'  
And things turned sideways  
Stayed up till the morning, I slept by the door  
And you showed up the next day

So we keep holding on  
You had me all along

There's no love in the city  
Just lights looking pretty  
So don't run to the city  
There's no love in the city

There's no love in the city  
Just some lights looking pretty  
So don't run to the city  
There's no love in the city

Cop lights  
That eviction notice in sight  
Don't waste our time on one night downtown  
Overpriced  
Covers at night clubs I'll fight  
Don't waste our time on one night downtown

There's no love in the city  
Just lights looking pretty  
So don't run to the city  
There's no love in the city

There's no love in the city  
Just some lights looking pretty

So don't run to the city  
There's no love in the city
