

# World On Fire

Louis The Child

I keep watching the world trace  
Their circles in their places  
Joining the race inside a maze  
Look 'round, are you one of them?  
Yeah, see how they can all seem  
Pointless in worry  
Slow down to hurry

The world could be on fire  
And we wouldn't know  
The temperature is rising  
And no one knows  
Hide behind the money  
That's the way it goes  
The world could be on fire  
And we wouldn't know

Complaining 'bout the same things  
Not watching where we're goin'  
Ending up 50  
Somehow with nothing  
No don't listen to what they say  
I admit I know that I have  
Don't be the same  
Don't be the same

The world could be on fire  
And we wouldn't know  
The temperature is rising  
And no one knows  
Hide behind the money  
That's the way it goes  
The world could be on fire  
And we wouldn't know

And so it goes another day here  
Passing by  
I saw it waving from the window  
Could you save me?  
Keep takin' time, takin' your time  
But there's no time left  
Listen for it's almost over  
Yeah

The world could be on fire  
And we wouldn't know  
The temperature is risin'  
And no one knows  
We'll hide behind the money  
That's the way it goes  
The world could be on fire  
And we wouldn't know
