

## Anytime, Anywhere

### Love and Theft

Downtown, big city, busy streets  
Small town, front porch swing  
Sunset on a boulevard  
Last call at a tiki bar  
Middle of the night, morning light  
Pulling you in on these lips of mine

[Chorus:]

Anytime, anywhere  
Let the world stop and stare  
On a jet plane, fast train  
Anyplace baby, I don't care  
What you want and when you need it  
I don't even really need a reason  
I'll go there  
And I'll kiss you, kiss you  
Baby, anytime anywhere  
Baby, anytime anywhere

The back of your neck on a moonlit levee  
In the bed of my beat up Chevy  
Slow dancing just off the blacktop  
Fireflies falling like electric raindrops  
Sunday drive, Friday night  
Baby, right now would be just fine

[Chorus]

A covered bridge on a country road  
Rollin' in the sand down in Mexico  
From the red on your lips to the red on your toes

[Chorus x2]
