

Girls Love To Shake It

Love and Theft

Rain likes to fall, sun likes to shine
Wheels like to roll like a Corona likes the lime
Junior likes to race, Skynrd likes to rock it
Money likes to burn a hole in both my pockets
Trucks like the mud, guns like to bang
Me, I like to see you just doin' your thing
Rivers like to run and cars like to drive

And girls love to shake it, shake it, shake it all night
Shake it, shake it
Shake it, shake it, shake it all night
Shake it, shake it
Shake it 'til the morning light
It ain't that complicated and they do it just right
Girls love to shake it
Shake it, shake it all night

Ooooooh ooooooh ooooooh
Girls love to shake it,
Shake it, shake it all night

Preachers like a church, guitars like pickin'
Water like a melon and fried likes chicken
Whiskey likes the barrel, tequila likes the shot
Bikinis like the beach and summers like it hot
We like it loud, crank it up to eleven
I wanna see the whole wide world two-steppin'
Freedom likes to ring, the flag likes to fly
And gigs love to shake it, shake it, shake it all night

Everywhere we've been, everywhere we go
Of all that we've learned, one thing that we know
From the banks of the mississippi to the New York lights
Girls love to shake it, Shake it, shake it all night

Shake it, shake it
Shake it, shake it, shake it all night
Shake it, shake it
Shake it, shake it, shake it 'til the morning light
It ain't that complicated and they do it just right
Girls love to shake it, yeah and that's alright
