

Runnin' Out Of Air

Love and Theft

Well I Gotta Catch My Breath
When I see you walking' in
You're crawling back in my head
Stealin' the oxygen
And everyone else in here
Disappears but the two of us
And the room starts to spin
Around the Chandelier
In the buzz of the crowd
I can feel the rush
'Cause your clouding up my atmosphere
Everybody's got somebody who gets them the way you got me
I still want you, I can't stop me

Girl I wanna run right to ya
Then I wanna run away
Girl, I gotta hand it to ya
You know how to make me pay
Girl, I wish I never knew ya
'Cause every time I see ya standing there
Oh, feels like I'm runnin' out of air

You're hitting me like a wave
You cover me in the crash
I'm drowning in what you say
It's takin' me under fast
As you're taking me down the hall
You make it easy for me to forget
'Cause you're saying everything
You know I want you to say
And I'm getting in deeper the darker it gets
And The lights go out as the surface fades
Everybody's got somebody
Who gets them the way you got me
You got me right where you want me

I still want you, I can't stop me
Girl I run right to ya
Then I Wanna Run Away
Girl I gotta hand it to ya
You know how to make me pay
Girl, I wish I never knew ya
'Cause every time I see ya standing there

Runnin' out of air
Runnin' out of air
