

# Never Get Away

Lovebugs

I know a boy who wants the world  
More than anything  
And he don't care what price he pays  
He'll do everything  
He'll never get away  
Never get away  
Never get away with it  
But you know he will  
He'll never get away  
Never get away  
Never get away with it  
But he's trying still  
He'll leave you standing in the rain  
When he's sucked you dry  
He'll make you believe that you're to blame  
For the tears you cry  
He'll never get away  
Never get away  
Never get away with it  
But he always does  
He'll never get away  
Never get away  
Never get away with it  
It is what he does  
Hey don't you remember  
That day in September  
It all fell apart  
You saw it coming  
But you kept running  
From a broken heart  
I know a boy who sold his soul  
To make him sing  
And he don't care what price he pays  
He lost everything  
Chorus
