

## Dead or Alive (I'm on Your Side)

Lovedrug

Bats fly, helium wing  
Dark sky cover the ground  
We should leave soon  
If you want to

Snow fall at the edge of the world  
Frozen hands, warm hearted  
Will you hold me  
If I ask you to

Bound to survive  
Dead or alive  
Trapped in the ice  
I'm on your side

It's not like we're over the moon  
More like... marooned  
We would leave soon  
If we could

Razor's edge of the world  
Permanently departed  
But at least we've got e, got each other

Bound to survive  
Dead or alive  
Trapped in the ice  
I'm on your side

Bound to survive  
Dead or alive  
Trapped in the ice  
I'm on your side
