

Doomsday & The Echo

Lovedrug

What's in your head
You've gotta believe me somehow
Who's in your head now
I think you're crazy how
You run and run around my world
Looking for a reason why I..
Can't walk it off
Can't come clean
A pretty shoe, a dirty soul
A God I lost somehow
You think I'm crazy how
I run and run with no sound
Trippin on my feet again I..
Just lost it all
Just came clean
Hey, just woke up and already I'm a losing
Messed up everything again
Drink up, pass the gun again
Hey, just woke up and already I'm a losing
Messed up everyone again
Someone pass the gun again now
I turn it on, I turn it down
Echoes in my house again
Now the doomsday light let the haunting inside
I turn it up and down again
I want you to know that i'm not scared
Hey, just woke up and already I'm a losing
Messed up everything again
Drink up, pass the gun again
Hey, just woke up and already I'm a losing
Messed up everyone again
Someone pass the gun again
Walk it off
And you'll come clean
Hey, just woke up and already I'm a losing
Messed up everything again
Drink up, pass the gun again
Hey, just woke up and already I'm a losing
Messed up everyone again
Someone pass the gun again, again, again
