

King of the Mountain

Lovedrug

Don't sweat it
You're just a kid without a clue
I used to be like you
Yeah, this is true

Don't sweat it
When you're sucking face in braces
Gettin' sticky down in places
That you never even knew

Hey kid, best of bad luck
Hard times teach you what's up
It's about time that down comes up
I am king of the mountain

Hey kid, don't beat yourself up
Hard times get you worked up
It's about time that down comes up
I am king of the mountain

Don't sweat it
Get yourself back up the hill
What's life without a thrill
What's life for real

Don't regret it
Dig your heels into the ground
When the avalanches sound
You won't be falling
